You're never too old,
too wacky, too wild,
to pick up a book
and read to a child.

Our Children's Outreach Program expands upon the traditional role of libraries and children services by offering early childhood information, parent education, emergent literacy, socialization, and family support in a mobile fashion. As a Family Place Library, we strive to build upon the knowledge that the following aspects are critical in a young child's growth and development:

- 📖 Good health
- 📖 Early learning
- 📖 Parental involvement
- 📖 Community support

It is our goal to provide the services, programs, resources, materials, and connections needed to foster and promote those components.
